# Downloads and more

After migrating the former website several times it is now time to integrate the available downloads here. This will take a few days to have all programs and infos here. At the moment these items are available:

**Avolites Fixture Finder** – search fixtures by channel definitions

**Titan Switch** – toggle Titan PC Suite between versions in seconds

**Titan Reset** – reset Titan settings to factory defaults, e.g. when the drawing board/virtual keyboard doesn't appear

**Titan English** – toggle Titan's GUI language to english on non-english windows computers

**Handbücher/Manuals** – deutsche Handbücher

**Midi To Web** – translate USB-MIDI calls to Web API requests

**Web API Demo** – first demo for the Titan Web API

**Avolites Personality Sammlung** – early collection of personalities specifically made for customers

**TitanOne Keys** – control TitanOne with the keyboard

**Avolites Showfile Parser** – an early tool to parse showfiles in order to extract patch information and more

**Informationen und Links** – Newsletter, Social Media, Foren etc.

**Bold Text** – some videos in order to get you started with Titan
