

Ai Modules

Notepad

| | |
|--------------------------|--|
| section | Text |
| short description | stores and displays text for various purposes. |
| licence level | Anjuna |
| ports | IOut [text] |
| parameter | Text [textarea] - input your text here. |
| skins | ./. |

This module is frequently used to leave notes/messages in the patch.

used in example

- [Artnet Video Switch](#)
- [Javascript Multiline Text](#)
- [Simple Javascript Patch](#)
- [Midi Layer Select](#)
- [Moving Screens](#)
- [Modules](#)
- [Text \(Generator\)](#)

Manual

Outputs a string containing the text from the text field - also useful for leaving notes in a patch.
