

Downloads and more

After migrating the former website several times it is now time to integrate the available downloads here. This will take a few days to have all programs and infos here. At the moment these items are available:

Avolites Fixture Finder - search fixtures by channel definitions

Titan Switch - toggle Titan PC Suite between versions in seconds

Titan Reset - reset Titan settings to factory defaults, e.g. when the drawing board/virtual keyboard doesn't appear

Titan English - toggle Titan's GUI language to english on non-english windows computers

Midi To Web - translate USB-MIDI calls to Web API requests

TitanOne Keys - control TitanOne with the keyboard

The old Forum - archived version with some questions and answers

The old Newsletter - archived version from the good old days
