Downloads and more

After migrating the former website several times it is now time to integrate the available downloads here. This will take a few days to have all programs and infos here. At the moment these items are available:

Avolites Fixture Finder – search fixtures by channel definitions

Titan Switch – toggle Titan PC Suite between versions in seconds

Titan Reset – reset Titan settings to factory defaults, e.g. when the drawing board/virtual keyboard doesn't appear

Titan English – toggle Titan's GUI language to english on non-english windows computers

Handbücher/Manuals – deutsche Handbücher

Midi To Web – translate USB-MIDI calls to Web API requests

Web API Demo – first demo for the Titan Web API

TitanOne Keys – control TitanOne with the keyboard

Avolites Showfile Parser – an early tool to parse showfiles in order to extract patch information and more

The old Forum – archived version with some questions and answers

The old Newsletter – archived version from the good old days
