

Example

Create Dummy Palettes

by:	Sebastian Beutel
published:	August 2023
description:	idea: Discord , @TEMO patch a dummy fixture, create colour palettes, remove dummy fixture This is a really huge macro which documents a lot of programming techniques, e.g. patching a fixture, setting values in the programmer, creating palettes, storing cues and cuelists
remarks:	start a new show and fire this macro. It will create global colour palettes for you.

[setup](#), [start](#), [dummy](#), [palette](#), [patch](#), [fixture](#), [macro](#)

This was the plan:

What needs to be done :

- Unpack Macro needs to create the Dummy palettes 1 through 10, 11 through 20
- Unpack Macro needs to create the Bump Palletes 101 & 102
- Unpack Macro needs to create Playbacks(11 thro 20, 21 thro 30, 31 thro 40 & Cuelists (101 thro 110) for the Macros
- Unpack Macro needs to Link Macros to Cues in Playlist

- Unpack Macro needs to record the Playback Groups for the Bump Selection
- Unpack Macro needs to create a Layout View and move the Selection Cue Lists to the Colour picker
- Layout at position X & Y
- Unpack Macro needs to add the Colour Selection Button Macros to the layout view

The macro shown here does the first half of the tasks.
