

Example

Open Timeline Window

by:	Diego Lopehandía, Mar 2022
published:	here
description:	opens the timeline window

[open](#), [timeline](#), [window](#)

control structures

- [menuLink](#)

Code

[openTimelineWindow.xml](#)

```
<?xml version="1.0" encoding="utf-8"?>
<avolites.macros>

  <macro id="Wiki.TLWindowOpen">
    <name>Timeline Open Window</name>
    <sequence>
      <step pause="0">
        <menuLink id="Windows.TimelineView" stack="mainWindowStack"
behaviour="PushOrRaise" />
      </step>
    </sequence>
  </macro>

</avolites.macros>
```

Explanation

This explains the functional steps within the sequence. For all the other XML details please refer to [Formats and syntax](#)

This simply opens the Timeline workspace window. if there is no timeline to show an error is shown 'No Timeline Selected Create or select a Timeline to continue'.

How to use it

1. [make this macro available](#)

2. fire the macro to open the timeline window
