Set Playback Paging to Never Hold

by:	Sebastian Beutel with help by Gregory Haynes, Sep. 2016
published:	http://forum.avolites.com/viewtopic.php?f=20&t=4834
description:	change user setting 'Playback Paging' to 'Never Hold'

functions

- ActionScript.SetProperty.Enum

affected properties

- Handles.HandlesHeldover

Code

SetPlaybackPagingNever.xml

```
<avolites.macros xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance"
xsi:noNamespaceSchemaLocation="Avolites.Menus.xsd">
  <!-- Macro to set PlaybackPaging to never. Sebastian Beutel with help
by Gregory Haynes 05/09/2016 -->
  <macro id="Avolites.Macros.PagingNeverHold" name="Set PbPaging to
NeverHold">
    <description>Sets PlaybackPaging to NeverHold.</description>
    <sequence>
      <step>ActionScript.SetProperty.Enum("Handles.HandlesHeldover",
"NeverHold")</step>
    </sequence>
  </macro>
</avolites.macros>
```

Explanation

This explains the functional steps within the sequence. For all the other XML details please refer to Formats and syntax

`ActionScript.SetProperty.Enum(“Handles.HandlesHeldover”, “NeverHold”)` simply sets the Titan Property `Handles.HandlesHeldover` to the required value. You may use this in order to quickly apply your preferred setting.

How to use it

make this macro available. Instead of going to User Settings/Handles, you can now fire this macro to set Titan to Playback Paging: Never Hold.
