

Example

Show a message prompt

by:	Sebastian Beutel, Sept. 2018
published:	here
description:	some ways to display a message from a macro
remarks:	Useful e.g. to debug your macros.

[show](#), [message](#), [prompt](#), [error](#), [debug](#), [alert](#)

functions

- [Menu.ErrorReport](#)
- [ActionScript SetProperty.String](#)
- [Menu.PushOrReloadMenu](#)
- [Math.ToString](#)

affected properties

- [Menu.ErrorMessage](#)
- [Palette.MasterFadeTime](#)

Code

[showmessages.xml](#)

```
<?xml version="1.0" encoding="utf-8"?>
<avolites.macros>

    <macro id="Avolites.Macros.Hello" name="Hello Macro">
        <sequence>
            <step>Menu.ErrorReport('Error.Generic', "Welcome to the world of
macros!")</step>
        </sequence>
    </macro>

    <macro id="Avolites.Macros.2lineerror" name="Another error">
        <sequence>
            <step>ActionScript SetProperty.String("Menu.ErrorMessage",
                "This is another message. " + "This is some more
text.")</step>
            <step>Menu.PushOrReloadMenu("Error.Generic")</step>
        </sequence>
    </macro>

    <macro id="Avolites.Macros.showfadetime" name="Show Fade Time">
```

```
<sequence>
    <step>ActionScript SetProperty.String("Menu.ErrorMessage",
        "The master fade time is currently " +
        Math.ToString(Palette.MasterFadeTime) + " seconds")</step>
    <step>Menu.PushOrReloadMenu("Error.Generic")</step>
</sequence>
</macro>

</avolites.macros>
```

Explanation

This explains the functional steps within the sequence. For all the other XML details please refer to [Formats and syntax](#)

tbd

How to use it

1. make this macro available
