

Function

Playbacks.ReleaseAllPlaybacksByPriority

```
Void Playbacks.ReleaseAllPlaybacksByPriority(AcwTimeSpan fadeTime, Boolean useMasterReleaseTime, Boolean allPlaybacks)
```

API	http://api.avolites.com/11.0/Playbacks.ReleaseAllPlaybacksByPriority.html
description	Releases all playbacks.
namespace	Playbacks
parameter	fadeTime (AcwTimeSpan) : The fade time to use when releasing.
	useMasterReleaseTime (Boolean) : True if we are to ignore the playback's release time.
	allPlaybacks (Boolean) : if set to true do not take into account the priorities.
return value	Void

Example in

[Release - Set Priority and Release:](#)

```
<step>Playbacks.ReleaseAllPlaybacksByPriority(Expert.ReleasePlayback.FadeTime, Expert.ReleasePlayback.UseMaster, false)</step>
```

Also used in

- [Release - Set Priority and Release](#)
