

Playbacks.ReleasePlayback

Void Playbacks.ReleasePlayback(Handle handle, AcwTimeSpan fadeTime, Boolean useMasterReleaseTime)

API	http://api.avolites.com/10.1/Playbacks.ReleasePlayback.html
description	Releases a playback.
namespace	Playbacks
parameter	handle (handle) : The handle of the playback which is to be released.
	fadeTime (acwtimespan) : The fade time to release the playback over.
	useMasterReleaseTime (Boolean) : Set to true if the playback's release time is to be ignored.
return value	Void

Example in

[handle](#):

```
<step>Playbacks.ReleasePlayback(userNumber:2,
Playbacks.MasterReleaseTime, true)</step>
```

Releases Playback with user number 2 in the [global release time](#).
