

Function

Timecode.TimecodeOne.Reset

Nowadays there are four timecodes available in Titan, and the same functions are available for [Timecode.TimecodeTwo](#), [Timecode.TimecodeThree](#) and [Timecode.TimecodeFour](#).

```
Void Timecode.TimecodeOne.Reset()
```

API	https://api.avolites.com/11.0/Timecode.TimecodeOne.Reset.html
description	Resets the timer to the starttime in Titan.
namespace	Timecode.TimecodeOne
parameter	none
return value	Void

Example in

[Timecode - Set Start Time](#):

```
<step condition="Math.IsEqual(Timecode.TimecodeFour.IsControlAllowed, true)">Timecode.TimecodeFour.Reset()</step>
```

Resets the timecode 4 to a previously set start time if this timecode can be controlled (i.e. is not clock, SMPTE or MIDI).

Also used in

- [Timecode - Set starttime to livetime and toggle source](#)
- [Timecode - Set Start Time](#)
- [Timecode - Winamp Tracks](#)
