

Identifier

PanelMidiCommands

List of the various MIDI commands. From the example in [Trigger - Add MIDI trigger](#) it is believed that it is implemented as type [Enum](#)

```

<!-- lines wrapped only for readability -->
<step>Triggers.AddMidiTrigger(
    Triggers.SelectedMappingId,
    Triggers.PendingTriggerTarget,
    1,

    <!-- here the MIDI command is determined -->
    Math.ToEnum(
        "Avolites.Titan.Controllers.Console",
        "Avolites.Titan.Controllers.Console.PanelMidiCommands",
        "Continuous"),

    1,
    0,
    127,
    0,
    false)
</step>

```

List from <http://api.avolites.com/11.0/Avolites.Titan.Controllers.Console.PanelMidiCommands.html>:
