

# Timecode.TimecodeFour

*Namespaces are not listed nor explained in the online API documentation. Hence, the description is merely guessed.*

*Nowadays there are four timecodes available in Titan, and identical functions and properties are available for [Timecode.TimecodeOne](#), [Timecode.TimecodeTwo](#), [Timecode.TimecodeThree](#) and [Timecode.TimecodeFour](#).*

Functions and properties related to Timecode 4.

As these are identical to those in the namespace [Timecode.TimecodeOne](#) please look there for properties and functions.
