

Titan Property

Handles.ThroughModifier

API	http://api.avolites.com/11.0/Handles.ThroughModifier.html
description	Gets or sets whether the handles between two selection ranges are also selected.
Namespaces	Handles
type	Flag
possible values	'once', 'held'. To be set with ActionScript.SetProperty.SetFlag

example

```
ActionScript.SetProperty.SetFlag("Handles.ThroughModifier", "Once")
```

Sets the ThroughModifier so that [Handles.SetSourceHandleRange](#) can be defined by the first and the last handle index.

used in

- [ActionScript.SetProperty.SetFlag](#)
- [Handles.SetSourceHandleRange](#)
