

Titan Property

Menu.ErrorMessage

API	./.
description	the message to be displayed in the error prompt.
Namespaces	Menu
type	String

example

```
<step>ActionScript.SetProperty.String("Menu.ErrorMessage",  
    "This is another message. " + "This is some more text.")</step>  
<step>Menu.PushOrReloadMenu("Error.Generic")</step>
```

The property is set, and later displayed in the main error menu.

used in

- [Show a message prompt](#)
- [Menu.ErrorReport](#)
- [Menu.PushOrReloadMenu](#)
