

Titan Property

Patch.Repatch.SelectedFixtureHandles

API	https://api.avolites.com/12.0/Patch.Repatch.SelectedFixtureHandles.html
description	Property which denotes the selected fixture handles specifically in the repatch menu.
Namespaces	Patch.Repatch
type	selection

The repatch menu does not actually use the PatchSelection, it has its own property Patch.Repatch.SelectedFixtureHandles.

example

```
<step pause="0.01">Patch.Repatch.SetDmxAddressesFromSelectedFixture()</step>
```

This inherently initialises the property Patch.Repatch.SelectedFixtureHandles with the currently selected fixtures.

used in

- [Patch - Park fixtures 1 thru 100000](#)
- [Patch - Park selected fixtures](#)
