

Titan Property

Playbacks.Editor.Macros.Target.Handle

API	http://api.avolites.com/11.0/Playbacks.Editor.Macros.Target.Handle.html
description	The handle to be used in other operations (e.g. copy or move).
Namespaces	Playbacks.Editor.Macros.Target
type	Handle

Can be set e.g. with [Playbacks.Editor.Macros.SetTargetHandle](#)

example

```
<step>Handles.SetSourceHandleFromHandle(Playbacks.Editor.Macros.Target.Handle)  
e)</step>
```

Here the (previously set) macro handle is used as source handle for another (copy) operation.

used in

- [Macro - Copy Macro by Macroid](#)
- [Change Playback Timings Grid](#)
- [Playbacks.Editor.Macros.SetTargetHandle](#)
