

Titan Property

ReleasePriority

| | |
|--------------------|---|
| API | http://api.avolites.com/10.1/Playbacks.ReleasePriority.html |
| description | The priority of the playbacks to be released. |
| Namespaces | Playbacks |
| type | Enum |
| values | LowPriority, MediumPriority, HighPriority, ProgrammerPriority, MaximumPriority |

As this is an **Enum**, other than stated in the API, **SetProperty.Enum()** needs to be used to set this property.

example

```
<step>ActionScript.SetProperty.Enum("Playbacks.ReleasePriority",
"HighPriority")</step>
```

This is the setting Release Priority which can either be set by clicking <Release> and toggling [Release Priority], or by setting the user setting.
