

Titan Property

Triggers.PendingTriggerTarget

API	http://api.avolites.com/11.0/Triggers.PendingTriggerTarget.html
description	Gets or sets the pending trigger target. This property holds data about a target we're creating a trigger for.
Namespaces	Triggers
type	Object

example

```
<step>Triggers.SetPendingTargetHardware(...)</step>
<step>Triggers.AddMidiTrigger(
    Triggers.SelectedMappingId,
    Triggers.PendingTriggerTarget,
    ...)
</step>
```

This sets `Triggers.PendingTriggerTarget` to a particular hardware item which then a trigger is set on.

used in

- [Trigger - Add MIDI trigger](#)
- [Triggers.AddMidiTrigger](#)
- [Triggers.SetPendingTargetAction](#)
- [Triggers.SetPendingTargetHandle](#)
- [Triggers.SetPendingTargetHardware](#)
