# AcwTimecodeSource

See <https://api.avolites.com/12.0/Avolites.Acw.Titan.AcwTimecodeSource.html>

This is an object type represented by an enum, denoting the current source for a timecode:

Member Value	Description
None	No source
Internal	Running off internal timer
UsbExpert	Running from the timecode provided by USB Expert.
Winamp	Running off Winamp
System	Running off the internal system clock
Smpte	Running from the SMPTE timecode input.
