Types/Object

AcwTimeSpan

ASSUMPTION (see About this wiki)

> AcwTimeSpan is a specific object type used to describe a time. It looks like this can be a number as well as a property object itself like Playbacks.MasterReleaseTime. It is further assumed that there is some inherent parsing/conversion.

Examples

release in a given time

```
<step>Playbacks.ReleasePlayback(userNumber:2,  5, false)</step>
```

release using master release time

```
<step>Playbacks.ReleasePlayback(userNumber:2,  Playbacks.MasterReleaseTime,
true)</step>
```

Also used in

- Playbacks.ReleaseAllPlaybacksByPriority
- Playbacks.ReleasePlayback
- Playbacks.Editor.Times.CueFadeInTime
- Playbacks.Editor.Times.PlaybackReleaseTime
- Playbacks.MasterReleaseTime
