

Web API example

Titan IDs

Simple HTML page to read the most common Titan IDs and locations out of the currently loaded Titan show.

author, date	Sebastian Beutel, 2018
published	https://www.avosupport.de/downloads/miditoweb/gettitanids.htm part of MIDI To Web
prog. lang./ framework	HTML, JavaScript, CSS
description	connects to Titan at localhost (same machine) and reads the most common Titan IDs and locations
other requirements	A web browser. As this is a single file, it can also be downloaded and used locally.

Screenshots

Titan IDs

This lists the assigned Titan IDs in the current show. If Titan Web API is currently running on the local computer (obviously only available with Titan Mobile from v5.0 on).

- 62.96.18 - first version published (v0.8)
- 62.96.18 - compose and display location string (v0.85)

These location strings have been tested for the Web API in v1.1 - they are different in v1.0.

Handles patched onto the Titan Mobile Web are not reported via /handles/all.
